## A FRESH APPROACH TO REFRIGERATION

Zero Zone has been a leader in refrigeration system and electrical control innovations for over 30 years. We have maintained that position because we listen to our customers, both contractors and end users, to continually reinvent our products through state-of-the-art engineering, custom tailored to each application. Our systems are legendary for their ease of installation and their convenient service access, providing excellent value in a reliable, energy-efficient package. In a world of spiraling energy costs, you can trust Zero Zone to help protect your investment and guide you toward truly Sustainable Resource Management.

## PATENT PENDING TECHNOLOGIES

### REFRIGERANT MANAGEMENT SYSTEM

- System-Wide Leak Detection
- Leak Repair Verification
- Logging, Graphing & Reporting

Real-Time Refrigerant Monitoring 24/7

### OIL MANAGEMENT SYSTEM

- Ensures Optimal Oil Level
- Protects Compressor Integrity
- Extends Compressor Life
- Maintains Maximum Efficiency

Eliminates Oil Overfill

### COMPRESSOR EASY-OUT SYSTEM

- Makes Compressor Removal Easy, Fast & Safe
- Reduces Labor Costs & Down Time
- Patent-Pending Kit Includes Rail, Trolley and Chain Hoist

The Safest Way To Remove Compressors

sustainable resource management

# EVOLUTION

THE NEXT STEP TOWARD PERFECTION

## PARALLEL RACKS

- Skilled craftsmen apply their quality brazing skills
  - Reducing maintenance costs & prolonging component life
- Reliability is integral to every part of your rack
  - Lowering cost of ownership & achieving ROI sooner

## MECHANICAL/ELECTRICAL SYSTEMS

- Factory preassembly means placement on site is quick & simple
- As capital equipment these systems qualify for asset depreciation
- Weather-resistant membrane roofs & insulated panels protect your investment

## OUTDOOR PARALLEL SYSTEMS

- Provides all the benefits of a machine house, but at a lower cost
  - Hinged maintenance access panels provide weather protection
  - Condenser is top or end-mounted to your specifications
- Distributed Systems Concept is the ultimate in flexibility
  - Reduces refrigerant & system installation costs
  - Reduction in copper piping decreases chances of refrigerant leaks

## CONDENSING UNITS

- Frames, controls & system configuration are built to your specs
  - This is not a “one-size-fits-all”
- We are experts in supermarket & heavy commercial applications
  - Rest assured, you are in competent hands

### Over 1,000 Quality Control Checks

Precision testing assures electrical control reliability & uncompromised system integrity.

innovative system solutions

## EXPERTS IN INDUSTRIAL SYSTEMS

- Cold Storage Warehouses
- Blast Freezers/Chillers
- Spiral Freezers
- Process Chillers
- Ice Arena Chillers
- Specialized Applications
