UNDER SHELF LIGHTING INSTALLATION INSTRUCTIONS

Instructions for installing under shelf lighting on a Zero Zone Reveal Merchandiser®.

Instructions

1. Position the under shelf light on the bottom of the shelf with the wire connector towards the left side of the shelf (FIGURE 1).
2. Attach the under shelf light to the shelf using the two magnets that are factory-installed to the light stick (FIGURE 2).
3. After installing the shelf, plug the wire into the nearest duct pocket under the shelf (FIGURE 3).
4. Bundle harness wire and place into magnetic clip. Mount magnetic clip on the side of the shelf bracket (FIGURE 4).
