CRYSTAL™  
MERCHANTISER

# ULTRA NARROW

*"They look terrific, and they are doing everything we want. Customers have really taken to them."*

*- Store Manager*

As either a single-sided or back-to-back unit, the Crystal™ Merchandiser Ultra Narrow is the right solution for your tight space requirements. Used as a grab-and-go end cap case, the 2-door Ultra Narrow fits at the end of a gondola without infringing on critical aisle space. The back-to-back style, a mere 55" from handle to handle, fits in line with shelving. The Ultra Narrow case maximizes merchandising space and aisle space!

Every case in the Crystal™ Merchandiser product line beautifully displays sandwiches, salads, produce, fresh meat, and beverages, and the Ultra Narrow case is no exception. Products in Zero Zone cases have less shrink and longer shelf life, meaning the Ultra Narrow always provides the freshest product to shoppers.

The Ultra Narrow design of our Crystal™ Merchandiser will diversify your floor plan and merchandising options. Contact your regional sales representative at [zero-zone.com](http://zero-zone.com) today!

ALSO AVAILABLE AS A SPACE-SAVING  
**BACK-TO-BACK!**
