Notes:

- For high-glide refrigerants, use dew point for unit sizing. Adjust evaporator pressure as needed to maintain discharge air temperatures.
- Baseline Evaporator Btu/h based on parallel rack system, LED lighting (Zero Zone ChillBrite® 4190), standard-energy doors (Zero Zone CoolView® Envision®), and ECM or SSC electronic fan motors.
- For condensing units (non-rack system), multiply total Btu/h rating by 1.06.
- Back-to-Back data reported per side. Btu/h deduct is applied to each side.
- Amps are based on electrical nameplate values. Watts are based on laboratory observations of actual energy use.
- One fan motor per door.
- Door (Anti-Sweat) Options: standard-energy and high-humidity package = heated glass and heated rails; solid doors = heated rails. All options include mullion and sill heat.
- Anti-Sweat Controller required for the high humidity package to comply with DOE energy requirements.
- Electric Defrost: 1 per day. Defrost termination temperature setting is 50°F. Failsafe time is 55 minutes. Refer to the Installation & Operation Manual for details.
- Hot Gas Defrost: 1 per day. Defrost termination temperature setting is 65°F. Failsafe time is 30 minutes. Refer to the Installation & Operation Manual for details. Zero Zone recommends 1 riser per refrigeration circuit when utilizing hot gas defrost.
- Individual risers for circuits of more than one case require refrigeration line sizing by Zero Zone.

Highlight Merchandiser® RHLC30T & RHLC30TBB Tall Specs

Low Temp Tall Reach-Ins with 30" x 73" CoolView® Envision® Doors

RHLC30TBB: T=Tall; BB=Back-to-Back

Building soffits must be set back at least 6" from the front of the doors to allow access to electrical wiring on the top of the case.

# of Doors	Length	Drain Dim.
2	60 7/8"	30 1/2"
3	91 3/8"	45 5/8"
4	121 3/4"	60 7/8"
5	152 1/4"	76 1/8"

Optional top refrigeration connection increases case height by up to 4".

SS-127-A

Specifications are subject to change without notice. All dimensions are nominal.
Case designed to operate in an ambient temperature of 75°F and relative humidity of 55% or lower.
